NEW QUESTION: 1 Im Security & Compliance Admin Center erstellen Sie eine Aufbewahrungsrichtlinie mit dem Namen Policy1. Sie müssen verhindern, dass alle Benutzer die Richtlinie deaktivieren oder den Aufbewahrungszeitraum verkürzen. Welchen Befehl solltest du ausführen? Wählen Sie zum Beantworten die entsprechenden Optionen im Antwortbereich aus. HINWEIS: Jede richtige Auswahl ist einen Punkt wert. **Answer:** Explanation: Erläuterung Verweise: <https://docs.microsoft.com/de-de/powershell/module/exchange/policy-and-compliance-retention/set-retentioncom>

NEW QUESTION: 2 Oracle9i extends the cursor sharing functionality with the new value of SIMILAR for the CURSOR_SHARING parameter. With CURSOR_SHARING = SIMILAR, cursors are shared for safe literals only. What is meant by 'safe literals only'? **A.** No literal value is substituted for a shared cursor. **B.** The substitution of any literal value will produce exactly the same execution plan. **C.** Different execution plans are generated for substituted literal values. **D.** The substitution of a literal value will produce different execution plans. **Answer: B**

NEW QUESTION: 3 You have a server named Server1 that runs a Server Core Installation of Windows Server 2012 R2 Datacenter. You have a WIM file that contains the four images of Windows Server 2012 R2 as shown in the Images exhibit. (Click the Exhibit button.) You review the installed features on Server1 as shown in the Features exhibit. (Click the Exhibit button.) You need to install the Server Graphical Shell feature on Server1. Which two possible sources can you use to achieve this goal? (Each correct answer presents a complete solution. Choose two.) **A.** Index 1 **B.** Index 4 **C.** Index 3 **D.** Index 2 **Answer: B, D** Explanation: Explanation/Reference: Explanation: These images (since they are Full GUI, not CORE), contain the binaries necessary to install all GUI elements. When you install Windows Server 2012 R2, you can choose between Server Core Installation and Server with a GUI. The "Server with a GUI" option is the Windows Server 2012 R2 equivalent of the Full installation option available in Windows Server 2008 R2. The "Server Core Installation" option reduces the space required on disk, the potential attack surface, and especially the servicing requirements, so we recommend that you choose the Server Core installation unless you have a particular need for the additional user interface elements and graphical management tools that are included in the "Server with a GUI" option.

For this reason, the Server Core installation is now the default. Because you can freely switch between these options at any time later, one approach might be to initially install the Server with a GUI option, use the graphical tools to configure the server, and then later switch to the Server Core Installation option.

NEW QUESTION: 4When IntroSpect ingests logs from different sources, it standardizes and catalogs the information. When it stores log data, it currently categorizes it into one of four standard schemas. Are these the four standard schemas? (VPN access data, email data, network data, and authentication data.)**A. No****B. Yes****Answer: A**
