NEW QUESTION: 1 Identify two correct statements for Goal Plan setup.**A.** The performance document attached to a Goal Plan decides the Goal Plan inclusion in a performance document. **B.** Goal Plan dates are defaulted from review period dates.**C.** The review period attached to a Goal Plan restricts the user from creating long-term goals.**D.** The start and end dates of a Goal Plan have to be within the review period.**E.** Long-term goals can only be created within long-term goal plans and cannot exist across goal plans.**Answer: A,D**

NEW QUESTION: 2 What does CUPS do?**A.** Standard UNIX file system permissions allow only for permissions to be set for one owner, one group, and all others. ACLs, on the other hand, allow for an essentially unlimited list of permissions entries.**B.** Any application that supports Auto Save and the Finder can manage document locking.**C.** PostScript Printer Description (PPD) files are printer driver files that instruct the CUPS system on how to communicate with specific printer models.**D.** Common UNIX Printing System (CUPS) manages all printing for OS X, including both local and shared printing.**Answer: D**

NEW QUESTION: 3 Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.Labs are not timed separately, and this exam may more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.Username and passwordUse the following login credentials as needed:To enter your username, place your cursor in the Sign in box and click on the username below.To enter your password, place your cursor in the Enter password box and click on the password below.Microsoft 365 Username:admin@

Microsoft 365 Password: #HSP.ug?$p6unIf the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab. The following information is for technical support only:Lab instance: 11122308You need to protect against phishing attacks. The solution must meet the following requirements:* Phishing email messages must be quarantined if the messages are sent from a spoofed domain. * As many phishing email messages as possible must be identified.The solution must apply to the current SMTP domain names and any domain names added later.To complete this task, sign in to the Microsoft 365 admin center.**Answer:** Explanation:See explanation below. Explanation1. After signing in to the Microsoft 365 admin center, select Security, Threat Management, Policy, then ATP Anti-phishing.2. Select Default Policy to refine it.3. In the Impersonation section, select Edit.4. Go to Add domains to protect and select the toggle to automatically include the domains you own.5. Go to Actions, open the drop-down If email is sent by an impersonated user, and choose the Quarantine message action.Open the drop-down If email is sent by an impersonated domain and choose the Quarantine message action.6. Select Turn on impersonation safety tips. Choose whether tips should be provided to users when the system detects impersonated users, domains, or unusual characters. Select7. Select Mailbox intelligence and verify that it's turned on. This allows your email to be more efficient by learning usage patterns.8. Choose Add trusted senders and domains. Here you can add email addresses or domains that shouldn't be classified as an impersonation.9. Choose Review your settings, make sure everything is correct, select , then Close.Reference: https://support.office.com/en-us/article/protect-against-phishing-attempts-in-microsoft-365-86c425e1-1686-430a
