**NEW QUESTION: 1**DRAG DROP**Answer:** Explanation:

**NEW QUESTION: 2**When personal information is transmitted across networks, there MUST be adequate controls over:**A.** privacy protection.**B.** encryption devices.**C.** change management.**D.** consent to data transfer.**Answer: A****Explanation:**Privacy protection is necessary to ensure that the receiving party has the appropriate level of protection of personal data. Change management primarily protects only the information, not the privacy of the individuals. Consent is one of the protections that is frequently, but not always, required. Encryption is a method of achieving the actual control, but controls over the devices may not ensure adequate privacy protection and, therefore, is a partial answer.

**NEW QUESTION: 3**You have an Azure subscription that contains an Azure key vault named KeyVault1 and the virtual machines shown in the following table.You set the Key Vault access policy to Enable access to Azure Disk Encryption for volume encryption.KeyVault1 is configured as shown in the following exhibit.For each of the following statements, select Yes if the statement is true. Otherwise, select No.NOTE: Each correct selection is worth one point.**Answer:** Explanation:

**NEW QUESTION: 4**A male client has burns over 90% of his body after an automobile accident resulting in a fire. He was trapped inside the auto and pulled out by a bystander. After several months in the hospital and over 20 surgeries, discharge planning has begun. Throughout his hospitalization the nursing staff has been aware of psychological changes the client faces after burns over a large portion of his body resulting in disfigurement.The nursing staff can best foster the client's self-esteem by:**A.** Allowing him to plan, assist in, and perform his own care whenever possible**B.** Following a standardized plan of care for burn clients formulated by a world-renowned burn center**C.** Adhering to a strict schedule of diet, exercise, and wound care **D.** Allowing him to go to physical therapy for whirlpool treatment when other clients were not in physical therapy**Answer: A****Explanation:**Explanation(A) A regimented schedule, allowing no

flexibility, will not foster the client's self-esteem. (B) Isolating the client may only enhance his feelings of social isolation due to his disfigurement. (C) Standardized care plans must be personalized and adapted to each client's situation. (D) Allowing the client control over his care will foster his self-esteem and prepare him for life outside of the hospital.
