NEW QUESTION: 1An IBM Spectrum Protect Storage Agent and Client are installed on the same physical machine. Which COMMETHOD option should improve performance?**A.** COMPSERIAL **B.** TCPIPC. **C.** NAMEDPIPE**D.** SHAREDMEM**Answer: D****Explanation:**SHAREDMEM specifies the shared memory communication method option. This method uses the same area of memory to send data between several applications at the same time. Both the server and the backup-archive client must be configured to support the shared memory communication method, and they must be installed on the same computer.**References:** IBM Spectrum Protect for Windows Version 8.1.0, Administrator's Reference, p 1691

NEW QUESTION: 2Which seeded role needs to be associated with the supplier user account so that a supplier can respond to the invited negotiations?**A.** Supplier Self Service Administrator. **B.** Supplier Sales Representative.**C.** Supplier Bidder**D.** Supplier Customer service representative**E.** Supplier Contract Manager**Answer: C,E**

NEW QUESTION: 3A network technician is troubleshooting a problem at a remote site. It has been determined that the connection from router A to router B is down. The technician at the remote site re-terminates the CAT5 cable that connects the two routers as a straight through cable. The cable is then tested and is plugged into the correct interface. Which of the following would be the result of this action?**A.** The interface status will indicate that the port is administratively down.**B.** The normal amount of errors and the connection problem has been resolved.**C.** The traffic will flow, but with excessive errors.**D.** The interface status will show line protocol down.**Answer: D****Explanation:**Devices of different types are connected with a straight through cable (patch cable). In this case, it is used to connect two devices of the same type. It is for this reason that the interface will display the line protocol down status.
