NEW QUESTION: 2A customer gets a larger business and they plan to limit the access of specified users to certain positions only. From the picture below, how do you restrict access to target populations?There are 2 correct answers to this question.Response:**A.** Use point 3 to grant users access either to every position in the business or to a specific target group of positions.**B.** You cannot restrict access to positions lower in the hierarchy than the granted user's position.**C.** You can restrict access to positions lower in the hierarchy than the granted user's position.**D.** Use point 2 to grant users access either to every position in the business or to a specific target group of positions.**Answer: A,C**

NEW QUESTION: 3 You are a database developer and you have about two years experience in creating business Intelligence (BI) by using SQL Server 2008. Now you are employed in a company named NaproStar which uses SQL Server 2008. You work as the technical support. Now you get an order from your company CIO, you are asked to design a SQL Server 2008 Integration Services (SSIS) package. The package contains a Data Flow task. According to the requirement of the company CIO, the package has to be modified to write all rows by which errors are generated to a text file. So what should you do? (choose more than one)
A. A Flat File Destination component should be used
B. The SSIS log provider for the text file should be used
C. A Raw File Destination component should be used
D. The SSIS log provider for the SQL Profiler should be used
E. An Error output should be added to the Data Flow component
Answer: A,E
