NEW QUESTION: 1A. EMC Mozy**B.** Amazon Elastic Compute Cloud**C.** Microsoft Azure**D.** Google App Engine**Answer: A****Explanation:**Software-as-a-ServiceThe capability provided to the consumer is to use the provider's applications running on a cloud infrastructure. The applications are accessible from various client devices through either a thin client interface, such as a web browser (example, web-based e-mail), or a program interface. The consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, storage, or even individual application capabilities, with the possible exception of limited user-specific application configuration settings.In a SaaS model, applications, such as Customer Relationship Management (CRM), e-mail, and Instant Messaging (IM), are offered as a service by the cloud service providers. The cloud service providers exclusively manage the required computing infrastructure and software to support these services. The consumers may be allowed to change a few application configuration settings to customize the applications.EMC Mozy is an example of Software-as-a-Service. Consumers can leverage the Mozy console to perform automatic, secured, online backup and recovery of their data with ease.Salesforce.com is a provider of SaaS-based CRM applications, such as Sales Cloud and Service Cloud.EMC E10-001 Student Resource Guide.
