NEW QUESTION: 1Which cloud computing characteristic enables consumers to request resources using a service catalog through a web-based user interface?**A.** Catalog management **B.** Metered services**C.** On-demand self-service**D.** Broad network access**Answer: C****Explanation:** On-Demand Self-Service A consumer can unilaterally provision computing capabilities, such as server time and network storage, as needed automatically without requiring human interaction with each service provider.A cloud service provider publishes a service catalogue, which contains information about all cloud services available to consumers. The service catalogue includes information about service attributes, prices, and request processes. Consumers view the service catalogue via a web-based user interface and use it to request for a service. Consumers can either leverage the "ready-to-use" services or change a few service parameters to customize the services.EMC E10-001 Student Resource Guide. Module 13: Cloud Computing
