NEW QUESTION: 2 An internal auditing team would like to strengthen the password policy to support special characters. Which of the following types of password controls would achieve this goal? **A.** Allow single sign on **B.** Password complexity **C.** Increase password length **D.** Add reverse encryption **Answer: B** Explanation: Generally, the minimum password length is considered to be 8 upper and lowercase characters. The use of at least one non-alpha character like punctuation, special characters, or numbers, combined with the password length produces strong passwords. Strong passwords are produced by the combination of a password's length and complexity.
