NEW QUESTION: 1A company is concerned about its ability to recover from a disaster because all of its Amazon EC2 instances are located in a single Amazon VPC in us-east-1. A second Amazon VPC has been configured in eu-west-1 to act as a backup VPC in case of an outage. Data will be replicated from the primary region to the secondary region. The Information Security team's compliance requirements specify that all data must be encrypted and must not traverse the public internet. How should the SysOps Administrator connect the two VPCs while meeting the compliance requirements?**A.** Configure NAT gateways in both VPCs, then configure route tables.**B.** Configure EC2 instances to act as VPN appliances, then configure route tables.**C.** Configure an internet gateway in each VPC, and use these as the targets for the VPC route tables.**D.** Configure inter-region VPC peering between the two VPCs, then configure route tables.**Answer: D**

NEW QUESTION: 2You are a data scientist working for a bank and have used Azure ML to train and register a machine learning model that predicts whether a customer is likely to repay a loan. You want to understand how your model is making selections and must be sure that the model does not violate government regulations such as denying loans based on where an applicant lives. You need to determine the extent to which each feature in the customer data is influencing predictions. What should you do?**A.** Enable data drift monitoring for the model and its training dataset.**B.** Score the model against some test data with known label values and use the results to calculate a confusion matrix.**C.** Add tags to the model registration indicating the names of the features in the training dataset.**D.** Use the interpretability package to generate an explainer for the model.**E.** Use the Hyperdrive library to test the model with multiple hyperparameter values.**Answer: D****Explanation:** Explanation When you compute model explanations and visualize them, you're not limited to an existing model explanation for an automated ML model. You can also get an explanation for your model with different test data. The steps in this section show you how to compute and visualize engineered feature importance based on your test data.**Reference:**
