**NEW QUESTION: 1** A new product owner needs to manage the backlog of a high-visibility, fast-moving project that is consuming a considerable amount of time. What should the product owner do? **A.** Schedule regular meetings with the scrum team to write, groom, and size user stories **B.** Schedule in-person, monthly meetings with key stakeholders to review the project's progress **C.** Seek regular input from project stakeholders, and reflect this input in the backlog's priorities **D.** Focus on stories based on the highest number of story points to first address those items with the highest value **Answer: A**

**NEW QUESTION: 2**

異なる仮想ネットワークでアプリケーションを実行し、必要に応じてネットワークを接続するだけでどのように役立ちますか? **A.** ビジネスグループを中心にアプリケーションを構成できます **B.** アクセスをロックダウンし、より強力なデータセキュリティを提供します **C.** 管理オーバーヘッドが少ない動的で詳細なポリシーを提供します **D.** ハードウェアコストを削減 **E.** 侵害されたシステムの爆発範囲を縮小します **Answer: E**

**NEW QUESTION: 3** An IS auditor is conducting a review of a healthcare organization's IT policies for handling medical records. Which of the following is MOST important to verify? **A.** IT personnel receive ongoing policy training. **B.** The policies comply with regulatory requirements. **C.** A documented policy approval process is in place. **D.** Policy writing standards are consistent. **Answer: B**

**NEW QUESTION: 4** Project Scenario Calendar Project (Note: The companies and people within the scenario are fictional.) There has been a reduction in the number of orders at the MNO Manufacturing Company due in part to the increased marketing activities of its competitors. To help counter this, the company has decided to create a promotional calendar for next year for all its current and prospective customers. The end product of this project will be a prepared calendar pack, ready for printing. The design of the calendar will be similar to one sent out previously, and must reflect the company image as described in the existing corporate branding standards. Another project is currently producing a new company logo when it is to be printed on each page of the promotional calendar. The prepared calendar pack will consist of: \* Design for each month - correctly showing public holidays and new company logo \* Selected photographs - 12 professionally-produced photographs, showing different members of staff \* Selected paper and selected envelope - for printing and mailing the calendar \* Chosen label design - a competition to design a label will be held as part of this project \* List of customers - names and addresses of customers to whom the calendar will be sent. The project is currently in initiation and will have two further stages: Stage 2 will include the following activities to: \* Create the customer list using information from the Accounts and Marketing departments \* Confirm compliance with the Data Protection Legislation \* Create a design for each month - this will be done by the internal creative team \* Select and appoint a professional photographer \* Gather photograph design ideas from previous project and agree photographic session schedule \* Prepare a production cost forecast \* Select paper and envelope. Stage 3 will include the

activities to: \* Produce and select tie professionally-taken photographs \* Hold the label design competition and choose the label design \* Assemble the prepared calendar pack. A production cost forecast, based on the options and costs for the paper, envelope, printing and marketing of the calendar is to be produced in stage 2. However, the actual production and distribution of the calendars is not within the scope of the project. The product cost forecast will be reviewed by the Project Board to determine whether the project should continue. It is now 05 October and the prepared calendar pack must be delivered to the print company by 30 November, to enable printing and distribution of the calendar in time for Christmas. The cost of the activities to develop the specialist products and the cost of the project management activities are estimated to be £20,000. There is a project time tolerance of +1 week / -2 weeks and a project cost tolerance of +£6,000 / -£6,000. A change budget of £500 has been allocated but there is no risk budget. The team member collating the list of customers has now forecast that it will NOT be complete by the end of this stage as originally planned, due to a number of new prospective customers' details not yet being available. What action should the team member take? **A.** Make an entry in the Risk Register so the Project Manager can decide on appropriate action. **B.** Add the product to the next Stage Plan in order to allocate additional resources and complete the work. **C.** Report the forecast delay in the next Checkpoint Report to the Executive. **D.** Raise an issue to inform the Project Manager. **Answer: D**
