NEW QUESTION: 2Which of the following panels allows you to detect the number of text and image errors in your document?**A. Pages Panel****B. Swatches Panel****C. Links Panel****D. Preflight panel****Answer: D**Explanation:The Preflight panel is a feature of InDesign CS5 that warns of the problems that could prevent a document or book from printing or outputting as expected while a document is being edited. These problems include missing files or fonts, low-resolution images, overset text, and a number of other conditions. The preflight settings can be configured to define which conditions are detected. These preflight settings are stored in

preflight profiles for easy reuse. To open the Preflight panel, choose Window > Output > Preflight, and double-click the Preflight icon at the bottom of the document window. The Preflight icon is green if no errors are detected or red if errors are detected. The Preflight panel is shown in the image below. Answer D is incorrect. The Pages panel is used in InDesign to work with document pages as well as master pages. It allows a user to create pages, which can be blank pages or based on a master page. These pages can be moved, copied, and deleted, as well as for retrospectively applying a master. The Pages panel also provides an excellent method to navigate through longer documents. To open the Pages panel, choose Window > Pages, or press Control+F12 on the keyboard. The Pages panel is shown in the image below: Answer B is incorrect. The Swatches panel stores colors. It is used to import, export, delete, and modify the color palette. Besides, a user can store custom colors in the Swatches panel. To add a color in the Swatches panel, move the cursor to the empty area of the Swatches panel (the cursor will change into the paint bucket) and click. To access the Swatches panel, select Window > Swatches.
