The C-S4FTR-2023 quiz prep can be printed onto the papers, Free demo has become the most important reference for the IT candidates to choose the complete exam dumps.

NEW QUESTION: 1Note: This question is part of a series of questions that use the same scenario. For your convenience, the scenario is repeated in each question. Each question presents a different goal and answer choices, but the text of the scenario is exactly the same in each question in this series.You are a database administrator for a company that has an on-premises Microsoft SQL Server environment and Microsoft Azure SQL Database instances. The environment hosts several customer databases, and each customer uses a dedicated instance. The environments that you manage are shown in the following table.You need to monitor WingDB and gather information for troubleshooting issues.What should you use?**A.** sys.dm_os_waiting_tasks**B.** sp_lock**C.** sys.dm_tran_active_snapshot_database_transactions**D.** sp_updatestats**E.** Activity Monitor**Answer: B**Explanation:ExplanationThe sp_lock system stored procedure is packaged with SQL Server and will give you insight into the locks that are happening on your system. This procedure returns much of its information from the syslock info in the master database, which is a system table that contains information on all granted, converting, and waiting lock requests.Note: sp_lock will be removed in a future version of Microsoft SQL Server. Avoid using this feature in new development work, and plan to modify applications that currently use this feature. To obtain information about locks in the SQL Server Database Engine, use the sys.dm_tran_locks dynamic management view.sys.dm_tran_locks returns information about currently active lock manager resources in SQL Server 2008and later. Each row represents a currently active request to the lock manager for a lock that has been granted or is waiting to be granted.References:
<https://docs.microsoft.com/en-us/sql/relational-databases/system-stored-procedures/sp-lock-transact-sql>

NEW QUESTION: 2Writing TestThe passages below contain several enumerated sections, each of which may or may not contain an error of grammar, usage or style. For each multiple-choice question, the first choice reproduces the selection from the original passage. The other choices offer alternatives. Select the best choice from among the five choices offered for each enumerated selection.(21)Teachers have long been known that teenage students do not really wake up (22) until well passed the time they physically arrive at school. (23)There's a well-known reason for this: researchers have found that (24)the teenage students blood contains (25)large amounts of the sleep hormone, melatonin. Scientists at a major university (26)are making a way of advancing the melatonin cycle (27)to help with this problem. (28)Melatonin production follows a daily cycle: it rises at night (29) and disappears at the daylight hours.(30)It is well-known that exposing the eyes to light during the evening (31)

delays melatonin's flowings start until (32) after the person went into the darkness of the bedroom. (33)Because of the students liking to stay up late (34) working on their computers or watching television, their melatonin cycle is delayed. (35)So when that happens in the morning, (36)the cycle don't end until well after they are in school.(37)However, as it happens, it turns out that not all light causes suppression of melatonin. (38) Only blue light. This means (39)that if you wear glasses that block blue light is the same as being in darkness as far as melatonin production is concerned. (40)Putting on blue blocking glasses at 9:00 P.M. will move the daily cycle forward in time so that the melatonin flow is over before the student gets to school.**A.** to help undo this problem**B.** to help complete this problem**C.** to help solve this problem**D.** to help with this problem**E.** to help this problem**Answer: C**Explanation:Explanation/Reference: Explanation:

NEW QUESTION: 3How many Tenders can a Payment Event have?**A.** one Tender for each form of Payment submitted**B.** one Tender for each account the payment is applied to**C.** no Tenders for Payment Events, only Payments**D.** one Tender per Payment Event**E.** no Tenders for Payment Events, only Payment Segments**Answer: A**
