Authoritative questions & answers of SAS Viya Intermediate Programming pdf dumps, The A00-420 Exam corresponds with multiple skills, Our A00-420 study materials will change your working style and lifestyle.

**NEW QUESTION: 1**The organization has an IT driver on cloud computing to improve delivery times for IT solution provisioning. Separate to this initiative, a business case has been approved for replacing the existing banking platform for credit card processing with a newer offering. It is the security practitioner's responsibility to evaluate whether the new credit card processing platform can be hosted within a cloud environment. Which of the following BEST balances the security risk and IT drivers for cloud computing?**A.** There may be regulatory restrictions with credit cards being processed out of country or processed by shared hosting providers. A private cloud within the company should be considered. An options paper should be created which outlines the risks, advantages, disadvantages of relevant choices and it should recommend a way forward.**B.** Cloud computing should rarely be considered an option for any processes that need to be significantly secured. The security practitioner needs to convince the stakeholders that the new platform can only be delivered internally on physical infrastructure.**C.** Using a third-party cloud computing environment should be endorsed going forward. This aligns with the organization's strategic direction. It also helps to shift any risk and regulatory compliance concerns away from the company's internal IT department. The next step will be to evaluate each of the cloud computing vendors, so that a vendor can then be selected for hosting the new credit card processing platform.**D.** A third-party cloud computing platform makes sense for new IT solutions. This should be endorsed going forward so as to align with the IT strategy. However, the security practitioner will need to ensure that the third-party cloud provider does regular penetration tests to ensure that all data is secure.**Answer: A**

**NEW QUESTION: 2**You are preparing to migrate a customer's legacy voice mail system and are about to install system software onto an Avaya Aura Messaging server. In gathering the required customer data, you realize some information is missing. Which forms or data are required before proceeding?**A.** An Avaya EPW (Electronic Planning Worksheet) should be completed for the new Avaya A Messaging server and for the existing legacy voice mail system.**B.** You should have the completed planning forms/installation worksheets for System Platform Avaya Aura Messaging.**C.** An Avaya DCT (Data Collection Tool) file should be generated and configured for the new Aura Messaging Server.**D.** You should have a customer provided installation data disk for the legacy voice mail system.**Answer: B**

**NEW QUESTION: 3**For this question, refer to the TerramEarth case study. You need to implement a reliable, scalable GCP solution for the data warehouse for your company, TerramEarth. Considering the TerramEarth business and technical requirements, what should you do?**A.** Replace the existing data warehouse with a Compute Engine instance with 96 CPUs.**B.** Replace the existing data warehouse with BigQuery. Use federated data sources.**C.** Replace the existing data warehouse with BigQuery. Use table partitioning.**D.** Replace the existing data warehouse with a Compute Engine instance with 96 CPUs. Add an additional Compute Engine pre-emptible instance with 32 CPUs.**Answer: B**
