NEW QUESTION: 1

レポートをサポートするために必要なデータセットとストレージモードの最小数はいくつですか？

A. 2つのDirectQueryデータセット **B.** 単一のDirectQueryデータセット **C.**

インポートされた単一のデータセット **D.** 2つのインポートされたデータセット **Answer: C**

Explanation:Explanation "The analysts responsible for each business unit must see all the data the board sees, except the profit and loss data, which must be restricted to only their business unit's data. The analysts must be able to build new reports from the dataset that contains the profit and loss data" => one dataset and two separate workspaces Reason:All data can be imported into one dataset also if these are two logical models. Shared dimensions can be reconsumed in both models. Reports and additional materials can be shared to the board with an app. The "profit and loss" data model needs RLS for the analysts and the analysts must have just read access to the original workspace. In a separate workspace with contributor (or more rights) they can create new reports (with live connection to the dataset). It is also stated that the new reports mustn't be shared so therefore no need to include them into the app. Import vs. DirectQuery: Due to RLS requirements an imported dataset is needed. It is not possible with file sources and Sharepoint lists.

NEW QUESTION: 2 Which type of voluntary benefits plan offers specified tax benefits for employers as well as employees and does not provide extra benefits for shareholders or executives? **A.** Defined contribution **B.** Cash balance **C.** Qualified plan **D.** Nonqualified plan **E.** Defined benefit **Answer: C**

Explanation:Explanation: This question describes the qualified plan, which provides IRS approved tax advantages but without any extra benefits for shareholders and executives. Answer choice A is incorrect because the nonqualified plan provides benefits to specified employees (i.e., executives) and shareholder. Answer choice B is incorrect because the defined contribution plan utilizes a standard pension plan but without the added benefits defined in advance. Answer choice D is incorrect because the cash balance plan is a combination of the defined benefit and defined contribution plan but does not fall under the immediate grouping of voluntary benefits programs. Answer choice E is incorrect because the defined benefit program starts with a pension plan and adds specified benefits to it.
