NEW QUESTION: 1Note: This question is part of a series of questions the same scenario. Each question in the series contains a unique solution. Determine whether the solution meets the stated goals.You need to meet the LabelMaker application security requirement.Solution: Create a conditional access policy and assign it to the Azure Kubernetes Service cluster.Does the solution meet the goal?**A. No****B. Yes****Answer: A**Explanation:ExplanationScenario: The LabelMaker applications must be secured by using an AAD account that has full access to all namespaces of the Azure Kubernetes Service (AKS) cluster.Before an Azure Active Directory account can be used with the AKS cluster, a role binding or cluster role binding needs to be created.References:<https://docs.microsoft.com/en-us/azure/aks/aad-integration>

NEW QUESTION: 2**A. Option C****B. Option D****C. Option A****D. Option B****Answer: D**Explanation: Switches keep the learned MAC addresses in a table, so that when a frame comes in with a destination MAC address that the switch has already learned, it will forward it to that port only. If a frame comes in with a destination MAC that is not already in the MAC address table, then the frame will be flooded to all ports except for the one that it came in on. In this case, Switch A already knows that 00b0.d0da.cb56 resides on port fa0/6, so it will forward the from out that port.

NEW QUESTION: 3You are the business analyst for your organization and you're working with Nancy, the Sales Director. You've been identifying requirements for Nancy about the sales force and her desire to add a customer management solution to the sales process. Nancy believes that the software can help automate the sales process, keep things better organized than the current approach, and ultimately create more sales for the organization. As a business analyst, which one of the following should you advise Nancy about her need?**A. There is a cost, time, and quality constraint that must be satisfied to create the solution.****B. There will be a cost and time element to create the solution.****C. There's an assumption that the perceived solution will create the desired benefit.****D. There are no constraints in the analysis process.****Answer: C**Explanation:ExplanationNancy is making an assumption that the software will make the entire sales process better. She's identified a solution that she assumes will improve the entire sales process.**Answer D** is incorrect. While there will be a cost and time element, this isn't the best answer to the questionand scenario.**Answer B** is incorrect. There are constraints in the analysis process, so this isn't the best choice.**Answer C** is incorrect. While this statement is true, it doesn't address Nancy's assumption about the solution;she's already attached to the problem.
