NEW QUESTION: 1A. Option CB. Option BC. Option DD. Option A**Answer: C****Explanation:** ExplanationTo verify the integrity of data since a security incident occurred, you need to be able to show a chain of custody.A chain of custody documents who has been in possession of the data (evidence) since a security breach occurred. A well-prepared organization will have process and procedures that are used when an incident occurs.A plan should include first responders securing the area and then escalating to senior management and authorities when required by policy or law. The chain of custody alsoincludes documentation of the scene, collection of evidence, and maintenance, e-discovery (which is theelectronic aspect of identifying, collecting, and producing electronically stored information), transportation of data, forensics reporting, and a process to preserve all forms of evidence and data when litigation is expected. The preservation of the evidence, data, and details is referred to as legal hold.

NEW QUESTION: 2A. Func<string, string>**B.** Func< string>**C.** Action< string, string>**D.** Action< string>**Answer: A**
