**NEW QUESTION: 3**Your company has a Microsoft Azure Active Directory (Azure AD) tenant and computers that run Windows10.The company uses Microsoft Intune to manage the computers. The Azure AD tenant has the users shown in the following table.The device type restrictions in Intune are configured as shown in the following table:User3 is a device enrollment manager (DEM) in Intune.For each of the following statements, select Yes if the statement is true. Otherwise, select No.**NOTE:** Each correct selection is worth one point.**Answer:** Explanation: ExplanationNo, Yes, NoPolicy 1 - Priority 1 (Andriod, IOS, Windows) Applied to None Policy 2 - Priority 2 (Windows) Applied to Group 2 Policy 3 - Priority 3 (Android) Applied to Group 1 User 1 is in G1, so they cannot enroll Windows devices. User 2 is in both G1 & G2, G2 has P2 with a Pri.2 which means, even though they are in G1, G1 has a pri.3, so P3 will not apply User 3 Is not a member of any group so the Default will apply. Policy 1 is assigned to NONE, default is assigned to All users, therefore they can NOT enroll iOS as default is only Android & Win.References: <https://docs.microsoft.com/en-us/intune-user-help/enroll-your-device-in-intune-android>Topic 2, Litware incThis is a case study. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.At the end of this case study, a review screen will appear. This

screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section. To start the case study To display the first question in this case study, click the button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Existing Environment Current Business Model The Los Angeles office has 500 developers. The developers work flexible hours ranging from 11:00 to 22:00. Litware has a Microsoft System Center 2012 R2 Configuration Manager deployment. During discovery, the company discovers a process where users are emailing bank account information of its customers to internal and external recipients. Current Environment The network contains an Active Directory domain that is synced to Microsoft Azure Active Directory (Azure AD). The functional level of the forest and the domain is Windows Server 2012 R2. All domain controllers run Windows Server 2012 R2. Litware has the computers shown in the following table. The development department uses projects in Azure DevOps to build applications. Most of the employees in the sales department are contractors. Each contractor is assigned a computer that runs Windows 10. At the end of each contract, the computer is assigned to different contractor. Currently, the computers are re-provisioned manually by the IT department. Problem Statements Litware identifies the following issues on the network: \* Employees in the Los Angeles office report slow Internet performance when updates are downloading. The employees also report that the updates frequently consume considerable resources when they are installed. The Update settings are configured as shown in the Updates exhibit. (Click the Updates button.) \* Management suspects that the source code for the proprietary applications in Azure DevOps is being shared externally. \* Re-provisioning the sales department computers is too time consuming. Requirements Business Goals Litware plans to transition to co-management for all the company-owned Windows 10 computers. Whenever possible, Litware wants to minimize hardware and software costs. Device Management Requirements Litware identifies the following device management requirements: \* Prevent the sales department employees from forwarding email that contains bank account information. \* Ensure that Microsoft Edge Favorites are accessible from all computers to which the developers sign in. \* Prevent employees in the research department from copying patented information from trusted applications to untrusted applications. Technical Requirements Litware identifies the following technical requirements for the planned deployment: \* Re-provision the sales department computers by using Windows AutoPilot. \* Ensure that the projects in Azure DevOps can be accessed from the corporate network only. \* Ensure that users can sign in to the Azure AD-joined computers by using a PIN. The PIN must expire every 30 days. \* Ensure that the company name and logo appears during the Out of Box Experience (OOBE) when using Windows AutoPilot. Exhibits
