That is why we offer you free demos under each version of C1000-175 test pdf training.

NEW QUESTION: 1
アプリケーションは、最初のユーザー認証に加えて、いつ再認証を呼び出す必要がありますか？**A.** アプリケーションのサインオフ時**B.** セッション中に定期的に**C.** 一定の非アクティブ後**D.** 各ビジネスプロセス**Answer: C**

NEW QUESTION: 2 Which factor encompasses the standards and cultural behavior that are important to the business?**A.** Strategy**B.** vision**C.** Values**D.** Mission**Answer: C**Explanation:In an effort to fully understand the business, it is imperative to be able to articulate the factors that drive the business strategy. The business priorities establish the direction for the business and determine the business outcomes to be achieved from the strategy. The business requirements, business capabilities, and business solutions enable the business to move from its current to its target state business model.In addition to defining the business priorities, requirements, capabilities, solutions, and outcomes it is important to understand the additional factors that drive the target state of the business.Values: Values encompass the standards and behavior that are important to the business.Values are important to understand from a business architecture perspective because the organization is a personification of its values. The business values influence how individuals within an organization perceive the purpose of the business. Business values vary across industry verticals and public and private sector organizations.Mission: The mission defines the purpose of the organization. Similar to the values, the mission will vary across industry verticals and public and private sector organizations.Vision: A vision is an overall picture of the target state of the business. Depending on the organization, there can be an overarching vision statement or each organization within the business can have a vision statement. A vision statement is not detailed in nature. The vision statement sets the framework for strategic planning. An example of a vision statement is a manufacturing company desiring to be the top steel provider in the world in the next five years. A vision statement is not detailed.Strategy: A strategy is a long-term plan that enables the business to work toward achieving its vision and is aligned with the values and mission of the organization. A strategy is based on the business goals and objectives that support the business priorities.A strategy is a map of how the business will move from point A to point B.

The strategy considers the business operations, value proposition, customers, and finance. The goals and objectives enable the business to measure its progress toward executing on the strategy.Goals: Business goals determine what the business wants to accomplish as part of its strategy. Using the manufacturing company that was mentioned earlier, one goal could be to acquire smaller steel manufacturers to build upon existing capabilities. Another goal may be to develop strategic partnerships with key suppliers. Metrics are associated with goals.There will be specific time lines for each of the previous examples.Objectives: Business objectives are more specific and often have shorter time lines than goals. Business objectives are components of business goals. A business objective for the steel manufacturing company may be reducing operational costs by 5 percent over the next six months. Another objective may be to develop three new strategic partnerships by the end of the next fiscal year.The SMART framework is used to define effective objectives:S: SpecificM: MeasurableA: AchievableR: RealisticT: Time bound

NEW QUESTION: 3 You are developing an assembly that will be used by multiple applications. You need to install the assembly in the Global Assembly Cache (GAC).Which two actions can you perform to achieve this goal? (Each correct answer presents a completesolution. Choose two.)
A. Use the Assembly Registration tool (regasm.exe) to register the assembly and to copy the assembly tothe GAC.**B.** Use Microsoft Register Server (regsvr32.exe) to add the assembly to the GAC.**C.** Use the Global Assembly Cache tool (gacutil.exe) to add the assembly to the GAC.**D.** Use Windows Installer 2.0 to add the assembly to the GAC.**E.** Use the Strong Name tool (sn.exe) to copy the assembly into the GAC.**Answer: C,D**Explanation:Explanation/Reference:Explanation: There are two ways to deploy an assembly into the global assembly cache:Use an installer designed to work with the global assembly cache. This is the preferred option for installing assemblies into the global assembly cache.Use a developer tool called the Global Assembly Cache tool (Gacutil.exe), provided by the WindowsSoftware Development Kit (SDK).Note:In deployment scenarios, use Windows Installer 2.0 to install assemblies into the global assembly cache.Use the Global Assembly Cache tool only in development scenarios, because it does not provide assemblyreference counting and other features provided when using the Windows Installer.References: http://msdn.microsoft.com/en-us/library/yf1d93sz%28v=vs.110%29.aspx
