NEW QUESTION: 1 Refer to the exhibit. The network administrator must establish a route by which London workstations can forward traffic to the Manchester workstations. What is the simplest way to accomplish this?
A. Configure a static route on London to direct all traffic destined for 172.16.0.0/22 to 10.1.1.2.
B. Configure a dynamic routing protocol on London to advertise all routes to Manchester.
C. Configure Manchester to advertise a static default route to London.
D. Configure a dynamic routing protocol on London to advertise summarized routes to Manchester.
E. Configure a dynamic routing protocol on Manchester to advertise a default route to the London router.
F. Configure a static default route on London with a next hop of 10.1.1.1.
Answer: A
Explanation: Explanation/Reference: Explanation: This static route will allow for communication to the Manchester workstations and it is better to use this more specific route than a default route as traffic destined to the Internet will then not go out the London Internet connection.
