NEW QUESTION: 1 You need to create the UserLicenses group. The solution must meet the security requirements. Which group type and control method should you use? To answer, select the appropriate options in the answer area. **NOTE:** Each correct selection is worth one point.

Answer: Explanation: Explanation Fabrikam plans to create a group named UserLicenses that will manage the allocation of all Microsoft 365 bulk licenses. The memberships of UserLicenses must be validated monthly. Unused user accounts must be removed from the group automatically. The group needs to be a Security group. Azure Active Directory (Azure AD) access reviews enable organizations to efficiently manage group memberships, access to enterprise applications, and role assignments. User's access can be reviewed on a regular basis to make sure only the right people have continued access. Reference:
