**NEW QUESTION: 1**You administer an Azure Active Directory (Azure AD) tenant.You add a custom application to the tenant.The application must be able to:  
\* Read data from the tenant directly.  
\* Write data to the tenant on behalf of a user.In the table below, identify the permission that must be granted to the application. Make only one selection in each column.**Answer:**  
Explanation:ExplanationYou can select from two types of permissions in the drop-down menus next to the desired Web API:  
\* Application Permissions: Your client application needs to access the Web API directly as itself (no user context). This type of permission requires administrator consent and is also not available for Native client applications.  
\* Delegated Permissions: Your

client application needs to access the Web API as the signed-in user, but with access limited by the selected permission. This type of permission can be granted by a user unless the permission is configured as requiring administrator consent. References:

<https://azure.microsoft.com/en-us/documentation/articles/active-directory-integrating-applications/>

**NEW QUESTION: 2** You use a Windows 8.1 tablet. The tablet receives Windows Update updates automatically from the Internet. The tablet has Wi-Fi and is connected to a 3G mobile broadband Wi-Fi hot spot. You need to minimize data usage while connected to this hot spot. What should you do? **A.** Configure the broadband connection as a metered network. **B.** Turn on Airplane Mode. **C.** Configure the interface metric of IP settings for Wi-Fi connection as 1. **D.** Disable File and Print Sharing for mobile broadband connections. **E.** Edit the Inbound Rule of Windows Firewall, and then disable Internet Control Message Protocol (ICMP) traffic. **Answer: A**  
Explanation: Explanation/Reference: Explanation: You can limit the bandwidth used by the broadband connection by configuring it as a metered network. A metered network is a network where data downloaded is 'metered' (measured) and you are charged for the amount of data downloaded. Setting a connection as metered prevents Windows from automatically using bandwidth in a number of ways including the following: Disables automatic downloading of Windows updates: Windows won't automatically download updates from Windows Update on metered Internet connections. You'll get a "Download" button you can click whenever you want to install updates. Disables automatic downloading of app updates: The Windows Store won't automatically download updates for your installed "Store apps" on metered connections, either. Desktop apps like Chrome, Firefox, and others will continue updating themselves normally. Tiles may not update: Microsoft says that the live tiles on your Start menu or Start screen "may" stop updating on a metered connection. References: <http://www.howtogeek.com/226722/how-when-and-why-to-set-a-connection-as-metered-on-windows-10/>

### NEW QUESTION: 3

これらのうち、個々のシグネチャを個別に設定することなく、各イベントのリスク評価に基づいてイベントアクションをグローバルに追加できますか? **A.** シグネチャイベントアクションプロセッサ **B.** イベントアクションオーバーライド **C.** イベントアクションフィルタ **D.** イベントアクション要約 **Answer: B**
