NEW QUESTION: 1A. Option DB. Option AC. Option BD. Option C **Answer: C** Explanation: Scenario: A server that runs Windows Server 2012 will perform RADIUS authentication for all of the VPN connections. Ensure that NAP with IPsec enforcement can be configured. Network Policy Server Network Policy Server (NPS) allows you to create and enforce organization-wide network access policies for client health, connection request authentication, and connection request authorization. In addition, you can use NPS as a Remote Authentication Dial-In User Service (RADIUS) proxy to forward connection requests to a server running NPS or other RADIUS servers that you configure in remote RADIUS server groups. NPS allows you to centrally configure and manage network access authentication, authorization, and client health policies with the following three features: RADIUS server. NPS performs centralized authorization, authorization, and accounting for wireless, authenticating switch, remote access dial-up and virtual private network (VPN) connections. When you use NPS as a RADIUS server, you configure network access servers, such as wireless access points and VPN servers, as RADIUS clients in NPS. You also configure network policies that NPS uses to authorize connection requests, and you can configure RADIUS accounting so that NPS logs accounting information to log files on the local hard disk or in a Microsoft SQL Server database. Reference: Network Policy Server

NEW QUESTION: 2 Your company uses Windows Defender Advanced Threat Protection (ATP). Windows Defender ATP contains the device groups shown in the following table. You onboard computers to Windows Defender ATP as shown in the following table. Of which groups are Computer1 and Computer2 members? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point. **Answer:** Explanation: Explanation

NEW QUESTION: 3 What is a key business driver for automation in the virtualized data center?
A. Change management policy **B.** Technology integration **C.** Service-level agreements **D.** Service metric reporting **Answer: C**
