**NEW QUESTION: 3** A company has a single Active Directory Domain Services (AD DS) domain. Each department within the company has its own organizational unit (OU). All client computers run Windows 7 Enterprise Edition and Microsoft Office 2010. The company wants to restrict access to some Office 2010 features. They develop a standard list of corporate restrictions. You have the following requirements: -Apply the corporate restrictions to all existing and future departments. -Ensure that specific restrictions can be added or removed for individual departments. -Ensure that the corporate restrictions are not applied to users and computers in the built-in Active Directory containers. -Minimize administrative effort for applying restrictions to future departments. You need to recommend a Group Policy object (GPO) deployment that meets the requirements. What should you recommend? (More than one answer choice may achieve the goal. Select the BEST answer.) **A.** Install the Office 2010 Resource Kit and create a custom transform (.mst) file for each department. Create a Starter GPO that contains the corporate restrictions. Create a separate GPO based on the Starter GPO for each department that deploys Office 2010 by using the transform file. **B.** Install the Office 2010 Group Policy Administrative Template settings.
