We can promise that our 202-450 study guide will be suitable for all people, including students and workers and so on.

NEW QUESTION: 1HOTSPOTYou have a computer that runs Windows 10 Enterprise that has a local group policy as shown in the following graphic. Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic. NOTE: Each correct selection is worth one point. **Answer:** Explanation: Explanation: Windows Updates will be downloaded from Windows Server Update Services only. This is determined by the "Specify Intranet Microsoft Update Service Location" setting and the "Do not connect to any Windows Update Internet locations" setting both being 'Enabled'. In the "Specify Intranet Microsoft Update Service Location" setting, you can specify the name of the Windows Server Updates Services server. If a user is logged into the computer and an update requires a restart, the computer will restart when the user signs out. This is determined by the "No auto-restart with logged on users for schedule automatic updates" setting being enabled. This group policy setting creates a registry key named NoAutoRebootWithLoggedOnUsers and sets the value of the key to 1 (enabled). With this setting enabled, you should be aware that the computer should be restarted at the earliest opportunity in order to complete the installation of the Windows Updates.

NEW QUESTION: 2What is the default username and password for communication between Cisco WCS and the Cisco 3300 Series MSE v7.0? **A.** admin and admin **B.** root and admin **C.** Cisco and Cisco **D.** cisco and cisco **E.** root and password **Answer: A**

NEW QUESTION: 3The following question requires your selection of CCC/CCE Scenario 4 (2.7.50.1.1) from the right side of your split screen, using the drop down menu, to reference during your response/choice of responses. At the end of Year 4, the commodity which experienced the greatest projected percentage price index increase over today is: **A.** Steel **B.** None of the above **C.** Copper **D.** Manufacturing labor **Answer: D**

NEW QUESTION: 4Select the statements that relate to the Source Path Tree in ASM. (Choose three) **A.** It is the initial forwarding path created **B.** The RP is the root of the tree **C.** The multicast source is the root of the tree **D.** It is represented by (*, G) entries **E.** The path between receiver and source is always the shortest path **F.** It is represented by (S, G) entries **G.** The Source Path Tree cannot be created without the RP **Answer: C, E, F**
