NEW QUESTION: 1 Requirements for property to qualify for the federal estate tax marital deduction include which of the following? 1. The property interest must be includible in the decedent's gross estate. 2. The property must pass in such manner that it will be includible in the surviving spouse's estate at death unless consumed or given away. **A.** Neither 1 nor 2 **B.** 1 only **C.** 2 only **D.** Both 1 and 2 **Answer: D**

NEW QUESTION: 2 There are some correlations between relational data base terminology and object-oriented database terminology. Which of the following relational model terms, respectively, correspond to the object model terms of class, attribute and instance object? **A.** Relation, domain, and column **B.** Relation, tuple, and column **C.** Domain, relation, and column **D.** Relation, column, and tuple **Answer: D** Explanation: Table shows the correspondence between the two models. In comparing the two models, a class is similar to a relation; however, a relation does not have the inheritance property of a class. An attribute in the object model is similar to the column of a relational table. The column has limitations on the data types it can hold while an attribute in the object model can use all data types that are supported by the Java and C++ languages. An instance object in the object model corresponds to a tuple in the relational model. Again image 011 the data structures of the tuple are limited while those of the

instance object can use data structures of Java and C++.
