**NEW QUESTION: 3**Which two are available using BPM Workspace? Select two.**A. Administration of the BPM process life cycle****B. Administration of end-user passwords****C. Administration of vacation rules****D. Administration of user groups****Answer: A, C****Explanation:**B: Users of Oracle Business Process Management Workspace includes the User Profile named Process Participants.This is the most basic profile, common to all users. It enables you to: Organize, find, claim, and perform work assigned or delegated either to you or to your group Delegate work to another user Create and manage personal rules-for example, whom to send tasks to when you are on vacation Define and share views Manage personal preferences View reports and dashboards These users may be spread throughout the organization or work outside the company. A process participant may be one who not only initiates the process, but can also track its progress and, if appropriate, withdraw it. Note: Oracle BPM WorkSpace and the Oracle Process Spaces allow process participants to interact with the applications you create using Oracle BPM. The Oracle BPM WorkSpace user interface provides tabs for each of the following: Process Instances: This tab enables process participants to view running process instances. Task List: This tab enables process participants to view and work with their assigned tasks. Process Dashboards: This tab provides out-of-the-box dashboards for monitoring process performance, task performance and workload. Custom Dashboards: This tab enables process participants to define and use custom dashboard based on the measurement data generated by process instances. Oracle BPM WorkSpace also enables business administrators to configure and maintain organizations and roles.
