NEW QUESTION: 1You have a Windows 10 Enterprise computer named Computer1. Computer1 has File History enabled.You create a folder named Folder1 in the root of the C: drive.You need to ensure that Folder1 is protected by File History.What are two possible ways to achieve the goal? Each correct answer presents a complete solution.**A.** From the Settings app, modify the Backup options.**B.** From File Explorer, modify the system attribute of Folder1.**C.** Modify the Advanced settings from the File History Control Panel item.**D.** From File Explorer, include Folder1 in an existing library.**Answer: A, D**Explanation:Explanation/Reference:Explanation:By default, File History backs up all libraries. We can therefore ensure that Folder1 is protected by File History by adding the folder to a library.The second method of ensuring that Folder1 is protected by File History is to add the folder location to File History. You do this by modifying the Backup options, not the File History Control Panel item as you might expect. In the Settings app, select Update & Security then Backup. Under the Back up using File History heading, select the Add a drive option.References:<https://www.winhelp.us/file-history-in-windows-8.html>
