NEW QUESTION: 1Your network contains a Windows Server Update Services (WSUS) server named Server1.You need to configure all WSUS client computers to download approved updates directly from the Microsoft Update servers. The solution must ensure that all WSUS client computers report successful installation of updates to Server1.What should you do?**A.** From Server1, modify the Update Files and Languages options.**B.** From Active Directory, deploy a Group Policy object (GPO).**C.** From Server1, modify the Update Source and Proxy options.**D.** From the WSUS client computers, modify the local computer policy.**Answer: A****Explanation:**You can specify whether to store update files on your local WSUS server or on Microsoft Update. If you choose to store the updates locally, you can limit the updates downloaded to your server by language. If you choose to store the update files on Microsoft Update, then your WSUS server obtains only update information (metadata) for the criteria you have specified on the Synchronization Options page. (...)To specify where to store downloaded update files1.On the WSUS console toolbar, click Options, and then click Synchronization Options.2.Under Update Files and Languages, click Advanced.3.Under Update Files, select whether to store update files on the server running Windows Server Update Services (WSUS) or on Microsoft Update. If you choose to store update files on your server, you can choose either to download update files only when they are approved, or to download express installation files.4.If you selected to store the files on the WSUS server, under Languages, select whether you want to limit the updates downloaded to your WSUS server by language, and then click OK. Note that if you select to download all languages (which is selected by default) that this will take more disk space. If possible, consider limiting the languages you download if you are also choosing to store update files on your WSUS server.5.In Tasks, click Save settings, and then click OK.Reference: <http://technet.microsoft.com/en-us/library/cc708480%28v=ws.10%29.aspx>
