NEW QUESTION: 1You are designing a distributed application that runs on the Microsoft Azure platform.The application must store a small amount of insecure global information for all users thatdoes not change frequently.You need to configure the application to meet the requirements.Which server-side state management option should you use? Each correct answerpresents a complete solution. Choose all that apply.**A.** Microsoft Azure session state**B.** profile properties of the Microsoft Azure application**C.** SQL Database**D.** Microsoft Azure application state**Answer: B****Explanation:**In many applications, you want to store and use information that is unique to a user. When a user visits your site, you can use the information you have stored to present the user with a personalized version of your Web application. Personalizing an application requires a number of elements: you must store the information using a unique user identifier, be able to recognize users when they visit again, and then fetch the user information as needed. To simplify your applications, you can use the ASP.NET profile feature, which can perform all of these tasks for you.

NEW QUESTION: 2At a certain library, there are fiction and non-fiction books only. How many of the books are non-fiction books?(1) There are 13,200 books at the library.(2) 35% of the books at the library are non-fiction books.**A.** Statement (2) BY ITSELF is sufficient to answer the question, but statement (1) by itself is not.**B.** Either statement BY ITSELF is sufficient to answer the question.**C.** Statements (1) and (2) TAKEN TOGETHER are NOT sufficient to answer the question, requiring more data pertaining to the problem.**D.** Statement (1) BY ITSELF is sufficient to answer the question, but statement (2) by itself is not.**E.** Statements (1) and (2) TAKEN TOGETHER are sufficient to answer the question, even though NEITHER statement BY ITSELF is sufficient.**Answer: E****Explanation:**Explanation/Reference:Explanation:The first statement alone does not give the information needed to know how many of the 13,200 books are fiction and how many are non-fiction. The second statement does not tell us 35% of what number are non- fiction books. The two statements together, give us enough information to calculate 35% of 13,200 and find the number of non-fiction books.

NEW QUESTION: 3A. Budget Register Entries**B.** Budget Reservations**C.** Basic Budgeting**D.** Budget Control**E.** Budget Planning**Answer: A,B,D**
