NEW QUESTION: 1 Which of the following is not a method that can be used to register securities with the state?
A. registration by notification
B. registration by qualification
C. registration by exception
D. registration by coordination
Answer: C
Explanation: Registration by exception is not a method that is used to register securities with the state. Registration by notification is a method available for those securities that meet a certain set of criteria and requires the least amount of paperwork. Registration by coordination is the method used for most securities. Registration by qualification is the most burdensome method, requiring a voluminous amount of paperwork.
