**NEW QUESTION: 2**An organization has noticed that malware was downloaded from a website that does not currently have a known bad reputation. How will this issue be addresses globally in the quickest way possible and with the least amount of impact?**A.** by creating a URL object in the policy to block the website**B.** by denying outbound web access**C.** by Isolating the endpoint **D.** Cisco Talos will automatically update the policies.**Answer: A**

**NEW QUESTION: 3**You need to recommend a solution for the sales reports.What should you include in the recommendation?**A.** BranchCache in hosted cache mode**B.** Distributed File System (DFS)**C.** BranchCache in distributed cache mode**D.** Offline files**Answer: B****Explanation:** DFS to increase the availability of data by storing the data on multiple servers. DFS could make the sales reports available, even if the WAN link is down.\* Scenario: Server3 has a shared folder that contains sales reports. The sales reports are read frequently by the users in both offices. The reports are generated automatically once per week by an enterprise resource planning (ERP) system. If a WAN link fails, users must be able to access ALL of the sales reports**Incorrect:** Not A, Not C: Branchcache (hosted or distributed) does not work when content server isnot reachable (link down).Not B: According to the scenario, the computers in the San Diego office are often replaced,so offline caching will not make the reports available all the time if WAN link goes down.**Reference:** What Is DFS?
