NEW QUESTION: 2John works as a project manager for BlueWell Inc. He is working on a high-profile project with 80 stakeholders and he needs to express to his project team and to the management the importance of communication in the project. He would like to show the number of stakeholder communication channels in the project. Based on this information how many communication channels exist within this project?**A.** 0**B.** 1**C.** 2**D.** 3**Answer: D****Explanation:** Communication channels are paths of communication with stakeholders in a project. The number of communication channels shows the complexity of a project's communication and can be derived through the formula shown below: Total Number of Communication Channels = $n(n-1)/2$ where, n is the number of stakeholders. Hence, a project having five stakeholders will have ten communication channels. Putting the number of stakeholders in the formula we can get the required communication channel for the project. It is $(80 \times 79)/2$ for 3,160 communication channels.
