NEW QUESTION: 1 DRAG DROP **Answer:** Explanation: * Use Table storage for Contractor information * Use Blob for Project Images * Scenario: VanArsdel needs a solution to reduce the number of operations on the contractor information table. Currently, data transfer rates are excessive, and queue length for read/write operations affects performance. / A mobile service that is used to access contractor information must have automatically scalable, structured storage. / Images must be stored in an automatically scalable, unstructured form. Note: Blob is an acronym for Binary Large object. Basically Blob is a sequence of bytes - just what an application needs. Blob can hold audio, video, email messages, archived files, zip files or a word processing document in a very general way.
