これは目標を達成していますか？ **A.** いいえ **B.** はい **Answer: B** Explanation: Explanation\* User2

must be able to view reports and schedule the email delivery of security and compliance reports. The Security Reader role can view reports. The Compliance Management role can schedule the email delivery of security and compliance reports. Reference:

<https://docs.microsoft.com/en-us/exchange/permissions-exo/permissions-exo> This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided. To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study. At the end of this case study, a review screen will appear. This screen allows you to review your answer and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section. To start the case study To

display the first question in this case study, click the button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Overview

**Contoso, Ltd.** is a consulting company that has a main office in Montreal and two branch offices in Seattle and New York. The offices have the users and devices shown in the following table. Contoso recently purchased a Microsoft 365 E5 subscription.

**Existing Environment** The network contains an Active directory forest named contoso.com and a Microsoft Azure Active Directory (Azure AD) tenant named contoso.onmicrosoft.com. You recently configured the forest to sync to the Azure AD tenant. You add and then verify adatum.com as an additional domain name. All servers run Windows Server 2016. All desktop computers and laptops run Windows 10 Enterprise and are joined to contoso.com. All the mobile devices in the Montreal and Seattle offices run Android. All the mobile devices in the New York office run iOS. Contoso has the users shown in the following table. Contoso has the groups shown in the following table. Microsoft Office 365 licenses are assigned only to Group2. The network also contains external users from a vendor company who have Microsoft accounts that use a suffix of @outlook.com.

**Requirements**

**Planned Changes** Contoso plans to provide email addresses for all the users in the following domains:

- \* East.adatum.com
- \* Contoso.adatum.com
- \* Humongousinsurance.com

**Technical Requirements** Contoso identifies the following technical requirements:

- \* All new users must be assigned Office 365 licenses automatically.
- \* The principle of least privilege must be used whenever possible.

**Security Requirements** Contoso identifies the following security requirements:

- \* Vendors must be able to authenticate by using their Microsoft account when accessing Contoso resources.
- \* User2 must be able to view reports and schedule the email delivery of security and compliance reports.
- \* The members of Group1 must be required to answer a security question before changing their password.
- \* User3 must be able to manage Office 365 connectors.
- \* User4 must be able to reset User3 password.

**Topic 1, Fabrikam, Inc** This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided. To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study. At the end of this case study, a review screen will appear. This screen allows you to review your answer and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section. **Fabrikam, Inc.** is an electronics company that produces consumer products. Fabrikam has 10,000 employees worldwide. Fabrikam has a main office in London and branch offices in major cities in Europe, Asia, and the United States.

**Existing Environment**

**Active Directory Environment** The network contains an Active Directory forest named fabrikam.com. The forest contains all the identities used for user and computer authentication. Each department is represented by a top-level organizational unit (OU) that contains several child OUs for user accounts and computer accounts. All users authenticate to on-premises applications by signing in to their device by using a UPN format of [\[email&#160;protected\]](#). Fabrikam does NOT plan to implement identity federation.

**Network Infrastructure** Each office has a high-speed connection to the Internet. Each office contains two domain controllers. All domain controllers are configured as a DNS server. The public zone for fabrikam.com is managed by an external DNS server. All users connect to an on-premises Microsoft Exchange Server 2016 organization. The users access their email by using Outlook Anywhere, Outlook on the web, or the Microsoft Outlook app for iOS. All the

Exchange servers have the latest cumulative updates installed. All shared company documents are stored on a Microsoft SharePoint Server farm. Requirements  
Planned Changes  
Fabrikam plans to implement a Microsoft 365 Enterprise subscription and move all email and shared documents to the subscription. Fabrikam plans to implement two pilot projects:  
\* Project1: During Project1, the mailboxes of 100 users in the sales department will be moved to Microsoft 365.  
\* Project2: After the successful completion of Project1, Microsoft Teams & Skype for Business will be enabled in Microsoft 365 for the sales department users. Fabrikam plans to create a group named UserLicenses that will manage the allocation of all Microsoft 365 bulk licenses.  
Technical Requirements  
Fabrikam identifies the following technical requirements:  
\* All users must be able to exchange email messages successfully during Project1 by using their current email address.  
\* Users must be able to authenticate to cloud services if Active Directory becomes unavailable.  
\* A user named User1 must be able to view all DLP reports from the Microsoft 365 admin center.  
\* Microsoft Office 365 ProPlus applications must be installed from a network share only.  
\* Disruptions to email address must be minimized.  
Application Requirements  
Fabrikam identifies the following application requirements:  
\* An on-premises web application named App1 must allow users to complete their expense reports online.  
\* The installation of feature updates for Office 365 ProPlus must be minimized.  
Security Requirements  
Fabrikam identifies the following security requirements:  
\* After the planned migration to Microsoft 365, all users must continue to authenticate to their mailbox and to SharePoint sites by using their UPN.  
\* The memberships of UserLicenses must be validated monthly. Unused user accounts must be removed from the group automatically.  
\* After the planned migration to Microsoft 365, all users must be signed in to on-premises and cloud-based applications automatically.  
\* The principle of least privilege must be used.

**NEW QUESTION: 2** Which of the following capabilities does backorder processing in basic ATP offer? Note: There are 2 correct answers to this question.
