**NEW QUESTION: 2**Refer to the Exhibit.An administrator has been given requirements to configure vMotion for a new virtual machine. The configuration should:Provide Network RedundancyUse VLAN 550Be secured against anyone trying to spoof communicationThe vSwitch1 configuration is shown in the Exhibit.Which three changes should be made to meet the stated requirements? (Choose three.)**A.** The VLAN ID must be set appropriately.**B.** The teaming and failover adapters must be set appropriately.**C.** The Load Balancing Policy must be set appropriately.**D.** The Traffic Shaping configuration must be altered.**E.** The default values for MAC Address Changes and Forged Transmits must be altered.**Answer: A,B,E**

**NEW QUESTION: 3**Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the

exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. You may now click next to proceed to the lab.

You need to ensure that Lee Gu receives a notification when a user is granted permissions on another user's mailbox. To answer the question, sign in to the Microsoft 365 portal.

**Answer:** Explanation: See explanation below.

Explanation Create an activity alert

1. Go to <https://protection.office.com/managealerts>.
2. Sign in to Office 365 using your work or school account.
3. On the Activity alerts page, click + New. The flyout page to create an activity alert is displayed.
4. Complete the following fields to create an activity alert:
  - \* Name - Type a name for the alert. Alert names must be unique within your organization.
  - \* Description (Optional) - Describe the alert, such as the activities and users being tracked, and the users that email notifications are sent to. Descriptions provide a quick and easy way to describe the purpose of\* the alert to other admins.
  - \* Alert type - Make sure the Custom option is selected.
  - \* Send this alert when - Click Send this alert when and then configure these two fields:
    - Activities - Click the drop-down list to display the activities that you can create an alert for. This is the same activities list that's displayed when you search the Office 365 audit log. You can select one or more specific activities or you can click the activity group name to select all activities in the group. For a description of these activities, see the "Audited activities" section in Search the audit log. When a user performs any of the activities that you've added to the alert, an email notification is sent.
    - Users - Click this box and then select one or more users. If the users in this box perform the activities that you added to the Activities box, an alert will be sent. Leave the box blank to send an alert when any user in your organization performs the activities specified by the alert.
  - \* Send this alert to - Click Send this alert Recipients box and type a name to add a users who will receive an email notification when a user (specified in the Users box) performs an activity (specified in the Activities box). Note that you are added to the list of recipients by default. You can remove your name from this list.
5. Click Save to create the alert. The new alert is displayed in the list on the Activity alerts page. The status of the alert is set to On. Note that the recipients who will received an email notification when an alert is sent are also listed.
