Since 2006, we serve more than 60,000 candidates and most of them get wonderful scores with our NS0-I01 study materials, Our products are global, and you can purchase NS0-I01 training guide is wherever you are.

NEW QUESTION: 1

スケーラビリティ用の技術的要件を満たすためにweb.configファイルでセッション・ストレージを構成する必要があります。どのSessionStateモードを使用しなければなりませんか。
(正解はそれぞれ完全なソリューションを示します。当てはまるものすべてを選んでください。)**A.** SqlServer**B.** StateServer**C.** InProc**D.** AutoDetect**Answer: A,B**
Explanation:ASP.NET session state supports several different storage options for session data. Each option is identified by a value in the SessionStateMode enumeration. The following list describes the available session state modes:
* StateServer mode, which stores session state in a separate process called the ASP.NET state service. This ensures that session state is preserved if the Web application is restarted and also makes session state available to multiple Web servers in a Web farm.
* SQLServer mode stores session state in a SQL Server database. This ensures that session state is preserved if the Web application is restarted and also makes session state available to multiple Web servers in a Web farm.
* InProc mode, which stores session state in memory on the Web server. This is the default.
* Custom mode, which enables you to specify a custom storage provider.
* Off mode, which disables session state.
