Answer: A

NEW QUESTION: 2 Operations Security seeks to primarily protect against which of the following? **A.** asset threats **B.** compromising emanations **C.** object reuse **D.** facility disaster
Answer: A Explanation: The most important reason for identifying threats is to know from what do the assets need protection and what is the likelihood that a threat will occur. Threats cannot be eliminated, but can be anticipated, and safeguards put in place to minimize their impact. Operations Security provides audit and monitoring for mechanisms, tools and facilities which permit the identification of security events and documentation of subsequent corrective actions.
