NEW QUESTION: 1 A WBS is being developed for a project. Which of the following would be BEST suited to contribute cost and time estimates for the project activities?
A. Project team members
B. Project sponsor
C. Project manager
D. Project scheduler
Answer: C
Explanation: Explanation
References: Kim Heldman, CompTIA Project+ Study Guide, 2nd Edition, Sybex, Indianapolis, 2017, p. 82

NEW QUESTION: 2 Click to expand each objective. To connect to the Azure portal, type <https://portal.azure.com> in the browser address bar. When you are finished performing all the tasks, click the 'Next' button. Note that you cannot return to the lab once you click the 'Next' button. Scoring occur in the background while you complete the rest of the exam.
Overview
The following section of the exam is a lab. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design. Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task. Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. To start the lab You may start the lab by clicking the Next button. You plan to create 100 Azure virtual machines on each of the following three virtual networks:
* VNET1005a
* VNET1005b
* VNET1005c
All the network traffic between the three virtual networks will be

routed through VNET1005a. You need to create the virtual networks, and then to ensure that all the Azure virtual machines can connect to other virtual machines by using their private IP address. The solution must require any virtual network gateways and must minimize costs. What should you do from the Azure portal before you configure IP routing?**Answer:**
Explanation: See solution below. Explanation Step 1: Click Create a resource in the portal. Step 2: Enter Virtual network in the Search the Marketplace box at the top of the New pane that appears. Click Virtual network when it appears in the search results. Step 3: Select Classic in the Select a deployment model box in the Virtual Network pane that appears, then click Create. Step 4: Enter the following values on the Create virtual network (classic) pane and then click Create: Name: VNET1005a Address space: 10.0.0.0/16 Subnet name: subnet0 Resource group: Create new Subnet address range: 10.0.0.0/24 Subscription and location: Select your subscription and location. Step 5: Repeat steps 3-5 for VNET1005b (10.1.0.0/16, 10.1.0.0/24), and for VNET1005c (10.2.0.0/16, 10.2.0.0/24). References:
<https://docs.microsoft.com/en-us/azure/virtual-network/create-virtual-network-classic>

NEW QUESTION: 3 Which of the following are multicast routing protocols? (Select 3 answers) **A. OSPF B. PIM-DM C. DVMRP D. PIM-SM** **Answer: B,C,D**

NEW QUESTION: 4 You are a licensing specialist. Your customer is Humongous Insurance, a large insurance company. Company Background Humongous Insurance plans to acquire another insurance company that has 40 employees. The other company licenses its products through an Open Business agreement. Network Description The Humongous Insurance network contains 750 desktops and 70 servers. The company uses a variety of Microsoft desktop and server technology. Current Licensing Solution The 70 servers are licensed as additional products under an Enterprise 5.x Agreement that will expire in two months. Business Goals In six months, the company plans to deploy four dual-processor servers that run SQL Server in an active/passive failover cluster configuration. These servers will allow employees to access customer information by using the Internet. The information technology (IT) department needs to be able to get training or assistance in using the network infrastructure. The department also needs an easy way to maintain the latest Microsoft server technology. End of repeated scenario You need to recommend Software Assurance for Humongous Insurance's Microsoft Office purchases. Which three Software Assurance benefits will the company obtain? (Choose three.) **A. Extended Lifecycle Hotfix Support B. Home Use Program C. Problem Resolution Support D. New Version Rights E. eLearning F. TechNet Plus** **Answer: B,D,E**
